THE INTELLIGENT ALTERNATIVE FOR ALL YOUR MATERIAL HANDLING NEEDS

NASA © 2011

In the wake of **Hurricane Irene**, many of our customers' fleets have been damaged to unbelievable levels. Heavy equipment was submerged in extremely high pools of water and warehouses and factories suffered due to heavy rain, severe flooding and extraordinarily high winds.

Thankfully, **our loyal clients called EFR Corp.** to help save their machines. We were able to tow the distraught fleet onto our trucks and haul them away to our state of the art facility for intense repair.

If you're in need of disaster relief for your fleet, please call us IMMEDIATELY!!

MATERIAL HANDLING TRAINING

Looking to get into a new field? **Forklift Operators can make up to \$32.00 an hour!**

Let EFR Corp. show you how to maneuver and maintain all your material handling equipment. We are well versed in educating manufacturers and operators alike of the fascinating and cutting edge technology forklifts use to organize merchandise. (Industries like logistics, distribution and construction will find our personal fleet extremely useful for their own needs.)

Our facility has all the equipment and training materials you need for a quick and safe learning environment. **We provide everything for your personnel***, from the equipment to the booklets to the pencils! The only thing they need to do is show up!

We are also equipped to train on-site at your facility. All we need is a room and forklift; **LET US DO THE REST!** We will supply your operators the materials they need to get the most out of the learning experience.

When classes are finished, each operator will receive a **Certificate of Completion** in our course and an **Operator's License**.

**Training classes have up to 5 students. For more than the suggested number of students, additional charges apply.*
